

1. Tomatoes are a fruit

1. Truth. This is because it contains the ovary and the seeds of a flowering plant.

2. Dogs sweat through their tongue

2. Myth. Panting is not the same as sweating. Most of their sweat glands are in their footpads. (But panting does keep them cool)

3. Bats are blind

3. Myth. They can't see in colour but at night they can see better than we do.

4. If you cut an earthworm in half it will regenerate and become 2 worms.

4. Myth. The front end will live but the back end will die.

3.11 Getting pregnant – Truths and Myths (Prop 1)

5. Goldfish have a 3 second memory

5. Myth. Actually, they have a good memory. You can train a goldfish to respond to different light or music.

6. You should drink 8 glasses of water every day.

6. Myth. It's probably good advice though.

7. If you swallow chewing gum it will stay in your stomach for 7 years.

7. Myth. It might not digest well but it will just come out in your poo – probably looking the same as when it went in.

8. The inventor of the toilet was called Thomas Crapper.

8. Myth. But he is real and he did help make toilets better with inventions like flushing!

3.11 Getting pregnant – Truths and Mythss (Prop 1)

9. Planet Earth is round.

9. Truth. Well, it's an oblate spheroid – it's definitely not flat.

10. Finger nails and hair keep growing after you die.

10. Myth. It just doesn't.

11. $1 + 1 = 2$

11. Truth. No question.

12. It's dangerous to wake someone up if they are sleepwalking.

12. Myth. Sleepwalking is dangerous. Wake them up!
