

The RSHP resource supports learning about EMOTIONAL WELLBEING and HELP-SEEKING BEHAVIOUR across Curriculum for Excellence Levels

The learning activities and supporting resources across the RSHP resource have an interest in supporting learning about emotional wellbeing and to equip children and young people with knowledge and skills to seek help if and when they need it. Learning on these topics is integrated with learning about relationships, but there are a number of activities where learning explicitly addresses these topics – the table below identifies this material and supports teachers/educators to map progression across the curriculum.
